

Finolex offers advanced solutions in plumbing & Sanitation

March, 2008. Finolex Industries Ltd, the largest manufacturer of PVC pipes in the country has received a highly encouraging response from the plumbing industry across the country for its UV stabilized plumbing system.

This plumbing system comprises of UV stabilised White pipes in sizes from 1/2" to 4" in schedule 40 & schedule 80 series as per ASTM D 1785 standards and fittings in white colour as per ASTM D 2467. The UV stabilized plumbing system, has solvent cement jointing system which in layman's language is known as 'cold welding '. This type of jointing system results in a permanent homogeneous leak proof joint.

Going a step further & with advancement in technology, Finolex is now set to introduce a Plumbing system which is complete LEAD FREE and hence the undue apprehension of migration of lead from the walls of the pipes into the water flowing through these pipes get eliminated. To start with, lead free plumbing system would be introduced in selected parts of the country, eventually launching it PAN INDIA.

According to Mr. V V Khandekar, President –“ Finolex Industries has already created a market for PVC plumbing pipes over the last 15 years especially down South where PVC plumbing pipes are being used regularly. Now the market is growing substantially in other regions & the company is committed to bring the benefits of technology to its customers”.

Finolex Sanitation System, (PVC-U SWR Pipes and Fittings) for the construction industry, are uniquely designed products which are manufactured conforming to IS:13592. The products are available in three sizes: 75mm, 110mm & 160mm diameter and offer a choice of **Solvent Cement or Rubber Ring Jointing**. Finolex SWR systems are UV stabilized, rodent repellent and chemically inert to all acids and alkalies.

“Finolex Industries has been present for last many years mainly as supplier of pipes for agricultural sector and now with introduction of its PVC plumbing & sanitation systems, plans to further expand by increasing its dealer and sub-dealer network across the whole country” – Mr. Khandekar added.

Finolex – marching ahead in innovation and technology, bringing forth-new products, and thus going hand in hand with the Construction Industry of progressive INDIA.... and as always ... GETTING PEOPLE TOGETHER !

About Finolex Industries Limited
