warm.
Unsurprisingly
safe.

ELECTRIC
WATER HEATERS

**XCEEDS
EXPECTATIONS**

The name Finolex is a blended word coined from the words 'fine' and 'flexible' as fine copper was drawn to make flexible cable, the company's first product after incorporation. Established in 1958 by brothers Pralhad P Chhabria and Kishan P Chhabria, Finolex Cables Ltd. is among India's leading manufacturer of electrical and telecommunication cables.

The company is known for their unmatched quality and safety standard which have made it amongst the most reliable brands of the country. Over the six-decade long journey, Finolex Cables has cemented its reputation as an innovative leader and quality manufacturer by continuously upgrading technology, modernizing manufacturing facilities and maintaining the highest standards in quality and service.

It is rapidly transforming from a manufacturer of wires and cables into an electrical products company, by expanding its product portfolio to market products like lighting, water heaters, fans, switches, switch gear, and electrical conduits. This reinforces its reputation of offering innovative products that cater to the needs of modern households.

Finolex Water Heater

Key Features

High Quality Heating Element

Offers superior heating performance with extended life span and minimum energy losses (Available with glass lined incoloy / copper selections).

Heavy Gauge Tank

Cold-rolled closed annealed sheet with 1.8 mm thickness.

Multi Function Safety Valve

Acts as pressure release valve, non-return valve, drain valve, expansion valve and vacuum release valve.

Adjustable Temperature Knob With Thermostat

One-hand pilot design allows a temperature setting between 25°C to 75°C.

Water Tubes With Whirlflow 2

The whirlflow 2 ensures no immediate direct contact between cold & hot water for a faster heating and maximum energy saving effect. A further improvement based on classic whirlflow design with 10% more hot water output.

Anti Bacteria Mode*

While heating water; this mode facilitates temperature rising up to 80°C over 1 hour. Thus, automatically removing impurities and bacteria*.

IPX4 Splash Proof

Ensures high level of protection for electrical parts from water splashing.

Blue Topaz Glasslined Enamel Coating

Models are equipped with ultimate protection against rust and corrosion. Blue topaz glasslined layer (0.5mm) provides several times corrosion resistance compared to standard inner tank designs.

Long lasting Anode Rod

A special device to enhance the corrosion protection of the tank.

Thermal Cutout

Cuts off electrical power to guarantee safety.

Energy Saving High Density

Foam insulation CFC free, complete protection design against radiant heat loss (up to 25mm thickness, 25% thicker than normal insulation design).

External Temperature Meter

Provides clear temperature indication.
